Overview

Style Guide

The Style Guide provides a comprehensive foundation of graphic standards for proper presentation of the City of San Diego's visual identity. Use of the Style Guide improves communication by ensuring consistency within an organization and enforces best practices by guiding designs to a quickly recognizable professional outcome.

The Style Guide is derived from two key elements: the color palette and the City logo. Together they provide a unifying theme and position the City as One San Diego, speaking with one, unified voice.

Development of the style guide is grounded in extensive research and testing. Focus groups, user interviews and online surveys captured participant's ideas and opinions. Key decisions regarding content and logo were based on feedback from the public.

The City can push its identity into exciting new areas. However, the identity can only make a positive impact if it is used consistently and correctly.

Values

2.1 DESIGN VALUES

Design values serve as an outline to follow during the design of a project.

Key questions to ask:

- What is the intent of the document?
- Will users understand its intent or take intended action?
- Is this the correct approach for the project?

Guidelines to follow:

1 Simple

- Simple visuals are easier to consume, process and remember
- Everything should be visually clear

2 Accessible

- Always design within the context of your audience. No one should feel left out
- Everyone should have the resources they need to become a contributor

3 Consistent

- Consistent visual languages build trust
- Visual repetition lowers the barrier to entry for communicating information

4 Contrasted

- Create a clear hierarchy of information using strong contrast.
Things should have differing size, shape and color depending on importance
- Lead the user on the intended path you want them to take—make it overly-obvious

Community engagement throughout the city reinforced the need to adhere to the values San Diegans say matter the most.

1 Togetherness

San Diego values community and takes pride in its neighborhoods and military.

2 Diversity

San Diego values the diversity of its citizens (and their cultures) and our landscapes.

3 Adventures

San Diego values outdoor living, the communities that come with it.

4 Singular Geography

San Diego's geography keeps us outside and enables an active lifestyle.

03

The City Seal

3.1 ANATOMY AND ORIGINS

The official seal of the City of San Diego was adopted by the City Council on April 14, 1914.

- A. The pillars of Hercules are used as supporters to recall the ancient territorial jurisdiction of Spain.
- B. The winged wheel represents manufacturing and transportation.
- C. The two connected dolphins symbolize the Pacific and Atlantic oceans, inseparably united by the Panama Canal.
- D. The motto, "Semper Vigilans," means "ever vigilant".
- E. The orange tree represents agriculture.
- F. The Spanish caravel represents the exploration and settlement by the Spanish.
- G. The blue wavy band below it represents the city's position on the sea.
- H. The mission, or carmelite belfry, suggests early settlement by the mission fathers.

3.2 SIZING AND GEOMETRY

In order to maintain the integrity of the seal, the minimum diameter size should be .75 inches for print or 116 pixels for digital applications.

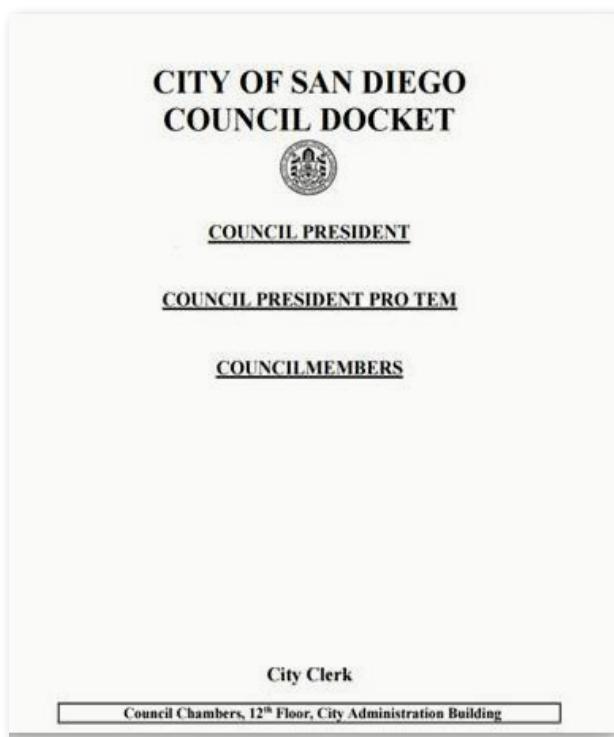

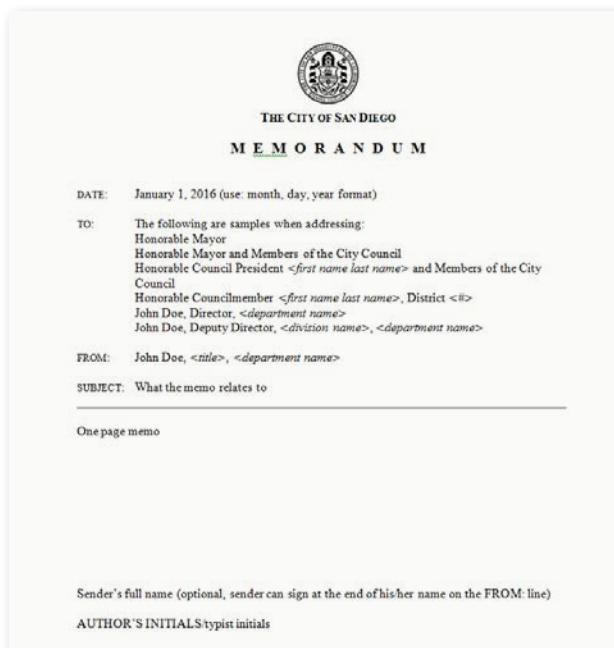

The clearspace for the seal should always be a minimum of 25% of the overall height—as shown here.

For more information on clearspace, see page 16.

3.3 CITY SEAL USAGE

- The City seal was designed by Carlton Monroe Winslow and was originally used to legitimize or validate documents.
- With the advent of the City logo, the City seal will return to its elevated status and be reserved for use on official documents only.
- The seal can be used on reports to council or committee, official memos, letters, certificates and proclamations.
- The City seal cannot be used in conjunction with the City logo.

04

Logos

Logo Background

The logo is at the core of the City's values. The "O" represents a central point of origin, a rally point for all residents to share in common.

The "Sails" wrapping around the "O" symbolize the geography and amenities that only San Diego can offer the community.

This style guide introduces all approved City of San Diego logo versions and demonstrates the rules for both print and digital use. Always use the logos in accordance with these guidelines.

The design language in this document is the primary tool for the City of San Diego to communicate. The face of this communication is the logo. The primary logo, shown here, has a family of alternates to be used for specific purposes. With this family, San Diego can communicate consistently across different media and size requirements.

4.2 PRIMARY LOGO ANATOMY

When working with the logo, it's important to know the correct terminology. The logo is composed of three parts; the sails, the preface, and the logotype. When all these elements combine—we have the complete logo.

Preface

For the Preface, "The City" is set in Merriweather Bold, with "of" being Merriweather Bold Italicized.

Logotype

The logotype is set in Sifonn Basic.

Note: Learn more about typography on page 24.

Clearspace

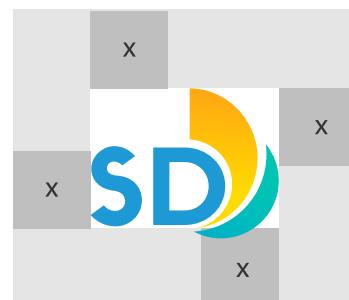

Working with the logos requires consistent clearspace. **Clearspace** is the “blank” space (X) around the entire logo that is free of text and other graphics. The clearspace has been set according to specific dimensions of the different logo components. 1x is the minimum amount of clearspace needed.

Spacing

Spacing of the primary logo elements should never change.

Units

The method for spacing is measured in relative “x” units. One “x” can be determined from the height of the letter “D” in the logotype.

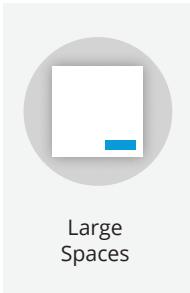

Electronic files of the City logo in different formats are available for download at www.sandiego.gov/communications/design

4.4 LOGO VARIATIONS AND USAGE

Variations of the primary logo can be used for communicating across different size and media requirements. The content and size should define what type of layout to use.

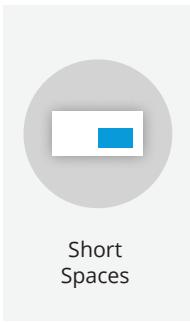

Primary

This horizontal alternate works well when the logo is not meant to be the focus of the design, but rather an element of authentication.

Alternate Stacked

This alternate stacked logo is available for use when the design space is vertical.

Alternate Initials

This alternate initials is perfect for small and/or digital applications. For example, on a mobile device when the alternate stacked may be scaled too small to maintain legibility.

Note:

The color and reverse variations can be applied to the alternate logos.

4.5 COLOR VARIATIONS

Full Color

The full-color logo should be used as much as possible across digital and printed materials. The reversed option (next page) should also be used whenever possible.

Full Color

Four Color

The four-color logo removes gradients from the sails of the logo.

Four Color

Two Color

The two-color logo uses the black and blue colors from the palette.

Two Color

One Color

A single-color can be used for any of the logo alternates when considering printing costs. For example, printing a T-shirt design.

One Color

Black and White

This option is to be used for low fidelity printing. For example, drafts, faxes or receipts.

Black & White

4.6 REVERSE

The reverse logo version is for use in applications with dark or solid-color backgrounds.

Blue Background

Full color

One color (reversed)

Dark Backgrounds

Full color

One color (reversed)

4.7 INCORRECT USAGE

Using the approved rules and logo versions explained in this style guide will strengthen brand consistency and maintain the integrity of the identity.

Incorrect usage of The City of San Diego identity, as seen here in several examples, should be avoided.

Don't remove elements

Don't add elements

Don't rotate

Don't change spacing

Don't change kerning

Don't resize the symbol

Don't change type

Don't change colors

Don't reposition

Don't stretch

Don't resize the type

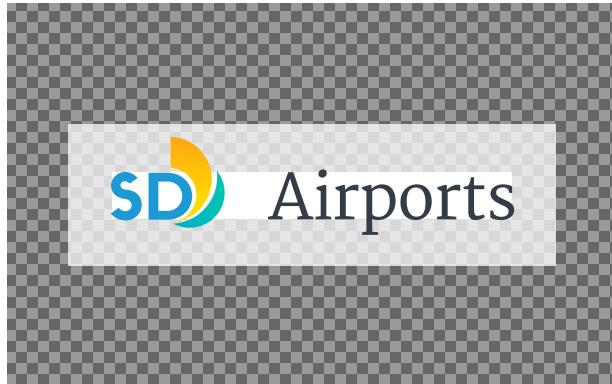

Don't cover up

4.8 DEPARTMENT LOGOS

The City of San Diego logo can be used to create department logos. For consistency, always use the provided templates found on the next page.

One Line

One Line/Two Words

Two Lines

4.9 HOW TO CREATE THEM

These department logo templates can be used for creating logos with varying name lengths.

Do

- Always start with the approved template
- Always keep department names left justified
- Use the font:
Merriweather – Regular

Template A

One Line

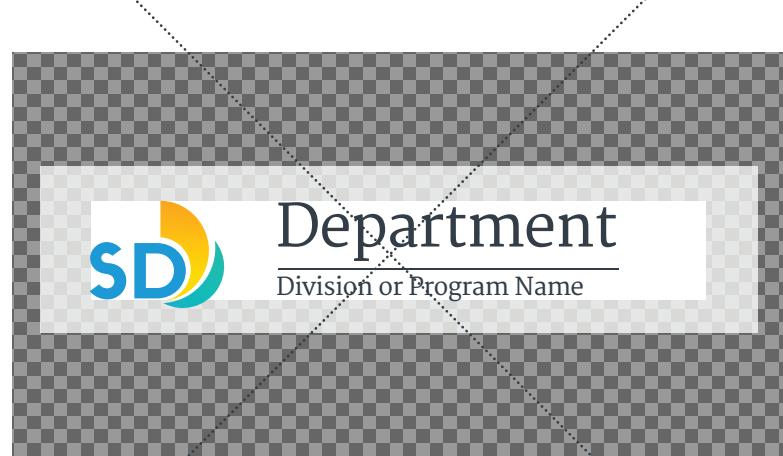

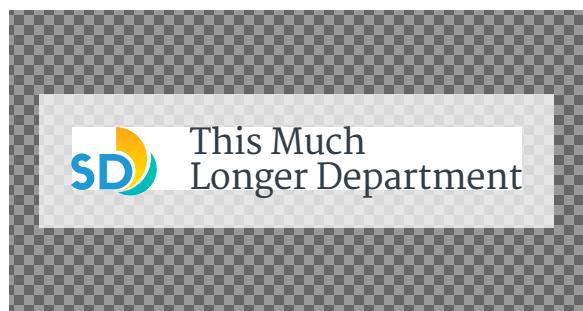

Do Not

- Don't have a department name wrap more than three lines
- Don't change alignment or geometry
- Don't change or add elements
- Don't break the department name to two lines if the first word of the department name is shorter than the logo
- Don't brand to a division or program, only to the City or department

Template B

Two Lines

Do not expand out to division or program name

Department logos are available for download at http://cityhub.sannet.gov/dept/comm/c/design/_layouts/15/start.aspx#/SitePages/Home.aspx

Color Palette

Inspiration

San Diego's natural beauty is world-renowned. This, paired with its warm atmosphere, are the foundation and inspiration for the brand colors.

The color palette includes a dominant blue, a complementary gold, and supporting secondary neutral tones.

IMAGE BY: MICHAEL MATTI

6.2 PRIMARY PALETTE

Color matters. Always use the appropriate version of the color palette for your needs.

The four versions are:

Pantone (PMS)

Pantone colors, also known as the Pantone Matching System, is a universal color system that will ensure all vendors produce the same colors.

CMYK

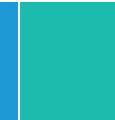

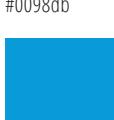

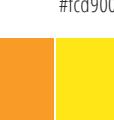

Process color, otherwise known as four-color process or CMYK, is a blend of four standard ink colors; Cyan, Magenta, Yellow and Key Black. These are a printer's primaries and can be combined to create the majority of visible ink colors.

RGB

RGB color is the spectrum of visible colors that are emitted by a digital monitor. In other words, RGB is a light based mode of color. RGB color is best used for websites, digital publications, and desktop wallpapers

Hex

Hexadecimal numbers, or "HEX" numbers, are a base-16 numbering system used to define colors on Web pages. A HEX number is written from 0-9 and then A-F.

6.4 COLOR PAIRINGS

The primary palette can be broken into pairings to best meet the needs of a design. As a general rule, start with the dominant color that best matches the tone of the main image in a design. For example, if a photo has primarily cool tones, start with Palette 1.

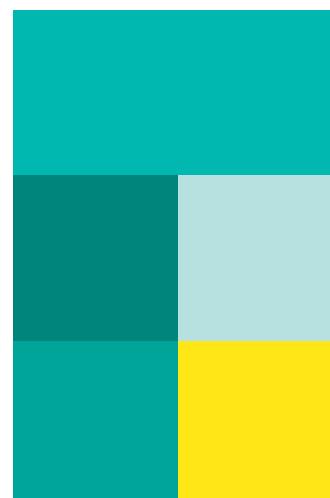

These pairings are comprised of a dominant analogous set with a single complimentary color from the primary palette. This compliment art color is used among the set to highlight or distinguish elements within a design.

These pairings represent the only approved color palettes. New palettes should not be created.

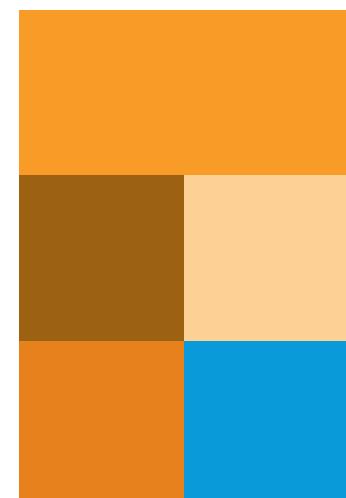

Palette 1 - Sea

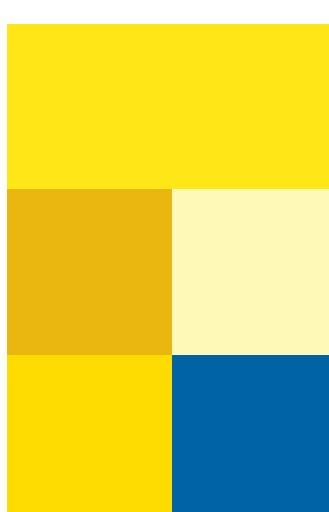

Palette 2 - Summer

Palette 3 - Sunset

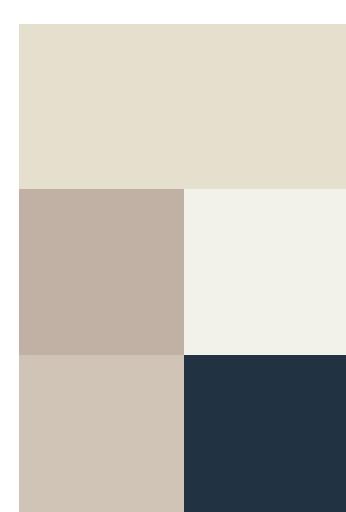

Palette 4 - Sunrise

Palette 5 - Classic

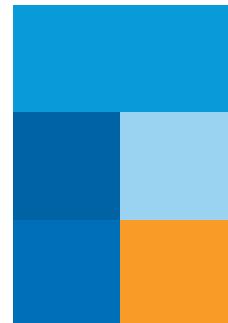

Palette 6 - Urban

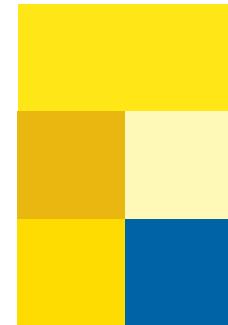

6.5 COLOR TONES

These examples show how the palettes can be paired with the existing tone of photography.

6.6 COLOR TONE EXAMPLES

The image displays four distinct color tone examples for the City of San Diego's website, each featuring a different background photograph and a matching color palette for text and links.

- Dark Blue Tone:** Features a dark blue background with white text. The main image shows a beach at sunset with silhouettes of people. The text area contains placeholder Latin text and a blue "sandiego.gov" button.
- Yellow-Gold Tone:** Features a yellow-gold background with black text. The main image shows a person walking on a beach at sunset. The text area contains placeholder Latin text and a blue "sandiego.gov" button.
- Dark Night Tone:** Features a dark night sky background with white text. The main image shows a city skyline reflected in water. The text area contains placeholder Latin text and a blue "sandiego.gov" button.
- Orange-Tan Tone:** Features an orange-tan background with black text. The main image shows a beach scene with palm trees and houses. The text area contains placeholder Latin text and a blue "sandiego.gov" button.

Email Signature

Standard Email Signature

Email is an acceptable form of communication in the City. However, it is important to remember that the tone and format of the email represents the City as an organization, and must always be professional.

A consistent email signature that follows the Visual Style Guide standards adds a professional touch and an immediate connection to the City brand. All City employees should use the email signature block provided below.

PLEASE NOTE: Personal quotes, graphics and social media icons should not be used in the email signature. However, it is permissible to add certain standardized language, such as legal disclosure policies or requests to minimize paper usage.

08

Charts, Graphs and Maps

8.1 CHARTS AND GRAPHS

Simplicity is key to data communication. These examples are characterized by simple lines, colors and shapes. Do not add flourishes beyond necessity. For larger number displays use the Merriweather typeface found on page 24.

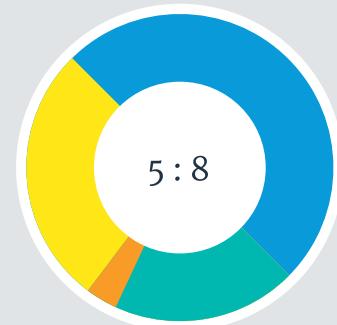

Principles

1. Always maintain high contrast for low light screens and the visually impaired.
2. Whenever possible alternate between warm and cool colors. This will ensure maximum legibility. See the color palette on page 27 and 28.
3. Be bold. Use thick shapes and lines.

8.2 DIGITAL MAPS

For digital applications, it is recommended to use Google Maps. It is free, reliable and familiar to most users. When appropriate, take advantage of the custom color options available within the Google Maps API.

A custom branded map pin can be used when applicable as shown here.
